Suzuki GZ250 Trike Conversion Kit

Cass County Choppers drew on years of manufacturing experience and expertise to produce a new Trike Conversion Kit for your Suzuki GZ250. Our trike conversion kits are user friendly and can be installed by most anyone with basic mechanical ability. We use the highest quality materials, the most advanced manufacturing procedures, and a highly valued commitment to sound engineering processes.

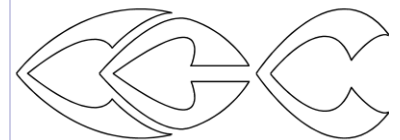

Cass County Choppers Suzuki GZ250 Trike Conversion Kit does not require your swingarm to be donated or removed. This would be a great addition for trike training courses. All of our components are manufactured out of high-quality billet aluminum and solid steel.

WE BUILD OUR TRIKE KITS TO LAST AND LOOK GREAT.

This trike kit will convert your Suzuki GZ250 into a 3-Wheeled TRIKE. This is not an add-on kit that uses training wheels. You will be removing the rear wheel and tire from your 2-wheel bike and adding 2 rear wheels. Kit comes with rear differential assembly, swingarm mounting plates, 1- 4 piston brake caliper, 1-brake rotor, wheel hubs (5 x 4 1/2 and 5 x 4-3/4 bolt patterns), brake master cylinder, and all mounting hardware. This kit does not include wheels/tires, fenders, and paintwork. Credit cards accepted. 90/180 days same as cash available.

\$2595 TOTAL PRICE PLUS SHIPPING!
